IRIS

1938

ROCKMONT NURSERY

Box 266

BOULDER, COLORADO

PHILIP ANDREWS, Owner

Foreword

Our Iris are grown in rich alluvial mountain soil a mile above sea level. Here the abundance of sunny dry days that bring health to people also produces sturdy, well-ripened iris rhizomes.

Iris season 1938 provided us the splendid opportunity to visit the iris gardens of the Sass brothers and of Dr. A. P. Loomis, and to confer there with other iris authorities on comparative qualities of recent originations.

Mr. D. M. Andrews' introductions, over a number of years, have received high commendation. Visitors come to Rockmont from far to see his well-known hybrids. In addition to these, we grow a selection of other iris whose reputation for beauty and performance has been well established.

Last year we introduced Mr. Andrews' BOULDERADO and DUKE OF WINDSOR. Both have received warm praise from iris growers and iris connoisseurs. This year we are offering special collections of proven value. We commend them to your consideration.

Shipping: Iris are shipped prepaid to all parts of the U. S. if the order amounts to \$1.00 or more. Please add 25c for packing and postage on all orders amounting to less than \$1.00.

Shipping season begins July 15th; orders will be filled in sequence of receipt. Designation of second choice, in case your first is sold out, will be appreciated. We do not substitute unless so instructed.

Culture: Tall bearded iris may be planted summer to fall. They prefer a sunny, well-drained position and should be planted "like a duck-on-water," but the soil must be well firmed about the fibrous roots, the top of the rhizome even with the ground surface.

Siberian and Spuria iris should be planted either in spring or fall. They prefer a damp soil, rich in humus and slightly acid. Some require light shade.

Iris descriptions include initials, E, M, L, indicating early, mid-season, and late blooming varieties. Height of flower stem, originator, and date of introduction are designated.

Guarantee: We supply healthy rhizomes only and guarantee them to be true to name and well packed. If not satisfactory, please return at once and adjustment will be made.

Discounts: Liberal quantity discounts are as follows:

Discount 10% on orders of \$10 to \$25.

Discount 15% on orders of \$25 to \$50.

Discount 20% on orders of \$50 or more.

Collections are net.

Remittance in full should accompany each order. Residents of Colorado include 2% sales tax. Money Orders, for small amounts, and cheques are acceptable. Please make cheques payable to Rockmont Nursery.

Our competent, experienced staff is prepared to give your orders careful attention.

Rockmont Nursery
Philip Andrews, owner.

‘All Colorado’ Collection

Colorado is proud of her two eminent Iris hybridizers, Dr. P. A. Loomis and Mr. D. M. Andrews. Rockmont Nursery is pleased to offer a selection of their originations which have received wide acclaim.

 Midgard, pink
 Pioneer, red-purple
 Primrose, yellow
 Solferino, red-lilac
 Santa Barbara, blue

Other Irises

- IRIS DICHOTOMA.** An easily grown iris species with a certain resemblance to the Blackberry Lily (*Pardanthus*) and requiring the same care. Blooms in August, in shades of light blue, opening in late afternoon. Strong flowering roots .40
- DWARF BEARDED IRIS,** also known as **PUMILA IRIS,** require the same culture as the tall bearded variety. Excellent for rock garden use and offered in four colors. **Coerulea**, pale blue; **Orange Queen**, yellow; **Royal Purple**, dark purple; **The Bride**, white. The four dwarf iris are offered at a uniform price of 20c each, collection of four at 60c, one dozen your selection at \$1.50.
- IRIS LONGIPETALA** is a hardy California species like *Missouriensis* but larger in growth. Flowers are bright lilac and very showy. Rarely offered 50c, 3 for \$1.25
- IRIS MISSOURIENSIS** is native of Colorado and has pale blue to lavender flowers in May. Stems are 15 inches which is about the same height as the foliage. Requires rather heavy soil and considerable moisture during growing season .30 each, dozen for \$2.00
- IRIS MISSOURIENSIS, BLUEBIRD.** A selected, vigorous type, the flowers deeper blue (*Bradley's Violet*), and freely produced. Each 40c, 3 for \$1.00; \$3.00 per doz.
- IRIS MISSOURIENSIS, SNOWBIRD.** Equally hardy but not as tall, flowers pure white, no veining. 50c each, \$1.25 for 3, \$5.00 per doz.

Iris Siberica

Siberian Iris have no summer dormant season like the tall bearded iris so must be planted during spring or fall. They are excellent for brightening the borders of streams or ponds although they will thrive in most any part of the garden. A well watered soil rich in humus and slightly acid with full sun or light shade is recommended. A profusion of bloom on tall graceful stems emerging from grass-like foliage makes the Siberian Iris especially valuable for your garden.

- BLUE FLAME.** Brilliant light blue with white .50
- GEORGE WALLACE.** Tall, light blue with deep veining. .30
- EMPEROR.** Deep violet .25
- KINGFISHER.** Rich violet, falls marked with white .50
- WISTERIA.** Falls very large, wisteria blue, suffused deeper blue, standards large. Distinct and very attractive .75
- PERIWINKLE.** Violet blue turquoise .60
- PERRY'S BLUE.** Uniform light blue .25
- RED RAIDER.** Red-toned purple 50
- SNOW QUEEN.** Pure white .25
- WHITE DOVE.** White .50
- SIBERIAN IRIS COLLECTION.** One each of the ten Siberians listed above sent prepaid 3.00

Iris Spuria

The Spuria Iris should be planted in the spring or fall like the Siberians and also prefer a damp rich soil. Flower stems may exceed 40 inches in length and the artistic flowers are quite unlike the other beardless species. The spurias are excellent for either border or cut flowers use.

A. J. BALFOUR. 3 ft. Cambridge blue	.50
LORD WOLLSELEY. Blue-purple	.40, 3 for \$1.00, 12 for \$3.00
MONNERI. Rich golden yellow	.75
MRS. A. W. TAIT. Soft porcelain blue	.40 each, 3 for \$1.00
OCHROLEUCA. Very tall white with yellow area.	.25 each, 3 for .50
SHELFORD GIANT. Very tall and large, cream with gold.	\$2.00 each

SPECIAL ANNOUNCEMENT: This year, for the first time, we are offering a Rainbow Collection of hybrid tall bearded Iris. These are all of Mr. Andrews' origination, the sisters and offspring of such famous iris as Gilead, Boulderado, Desert Dawn, and many others.

Ten, all colors **\$2.50** postpaid

In addition to Irises, Rockmont Nursery specializes in lovelier Lilacs (own-root French hybrids), high-grade Peonies, the best varieties of Phlox, Colorado evergreens and native plants. Our Fall 1938 catalogue listing these will be mailed you on request.

Visitors are always welcome at Rockmont Nursery
